News From Intelligent Light

Intelligent Light Wins HPC Innovation Excellence Award from IDC

Intelligent Light has been recognized by International Data Corporation for its work with bike wheel manufacturer Zipp Speed Weaponry. Intelligent Light applied state of the art CFD tools and practices with commercially available technology to achieve insights into the aerodynamic performance of Zipp's bike wheels. The result, Firecrest, the fastest wheel ever built, was introduced in 2010. Within two years Zipp doubled their product category revenue in a segment they already dominated and added over 120 new manufacturing jobs in Indiana to meet the new demand.

AIAA is proud to partner with the following organizations as they host our short courses at their facilities:

AERO Institute
National Institute of Aerospace
OAI Ohio Aerospace Institute

Courses Open to Everyone at Every Level

STAND-ALONE COURSES

Upcoming Courses:

28 February–1 March 2013
Mathematical Introduction to Integrated Navigation Systems, with Applications
Instructor: **Robert M. Rogers**

Early Bird Registration Deadline is **18 January 2013**
AERO Institute
Palmdale, California

28 February–1 March 2013
Optimal State Estimation
Instructor: **Dan Simon**

Early Bird Registration Deadline is **18 January 2013**
AERO Institute
Palmdale, California

4–5 March 2013
Modeling Flight Dynamics with Tensors
Instructor: **Peter Zipfel**

Early Bird Registration Deadline is **1 February 2013**
National Institute of Aerospace
Hampton, Virginia
